

## CATHOLIC CHURCH CORNERSTONE LAID

Will Benefit East Washington.

### FATHER MACKIN OFFICIATES

Building Will Be Ready for Occupancy by December 1—Dedicated in Late Spring.

A new Catholic church for northeast and southeast Washington had its formal beginning yesterday afternoon when the Rev. James F. Mackin, pastor of St. Paul's Church, laid the cornerstone for the Church of the Holy Comforter at Fourteenth and East Capitol streets.

The ceremonies were attended by several thousand people and were unusually impressive. Father Mackin was especially appointed to lay the cornerstones in place of His Eminence who was unable to be present.

Father Mackin was assisted by the Rev. Joseph Maguire, pastor of the new church, the Rev. Dr. Kerby, of the Catholic University, and the Rev. Father McGuigan, one of the assistant pastors of St. Patrick's Church, who acted as master of ceremonies. The Rev. Father McGuigan, of the Catholic University, preached the sermon.

#### Parish Year Old.

Much interest centered in this simple ceremony of yesterday. The parish of the Church of the Holy Comforter is a little more than a year old and, since it was organized, services have been held in a house at Fourteenth and East Capitol streets, diagonally across from where the new church will stand.

The parish takes in all the territory east of Fourteenth street and west as far as Eleventh street. Part of the latter territory was previously included in St. Peter's and St. Joseph's, but this has been made over to the Holy Comforter parish.

Father Maguire has been pastor of the new parish since its inception.

#### Began Last August.

Work on the foundation of the church was begun last August and it is expected the new building will be ready for occupancy by December 1.

Father Maguire has been unusually energetic and throughout the short history of his charge he has had the confidence and support of his people.

The new church will have a seating capacity of 750 and will be equipped with all conveniences. It will be built of pebble-dashed brick and will be in the old Spanish mission style.

It is not expected the dedicatory ceremonies will be held until the late spring, although services will be held in the new church as soon as it is ready for occupancy.

### OZANAM SOCIETY ELECTS OFFICERS FOR THE YEAR

The Ozanam Society, a new Catholic organization formed last April, held its first meeting of the year yesterday in Carroll Institute. Its membership is made up of delegates from various Catholic organizations throughout the diocese of Baltimore.

Chief interest in the meeting yesterday centered in the elections for the year, which were as follows: Spiritual director, the Rev. A. M. Mark, St. Anthony's Club; president, W. C. Sullivan, Carroll Institute; vice president, Eugene F. Saxton, Baltimore, Md.; secretary, Maurice H. Lanman, St. Stephen's Institute; treasurer, George R. Cooksey, Aquinas Association; additional members of the executive board, F. S. Maguire, Aquinas Association; Joseph F. Welch, St. Stephen's Institute, and Arthur J. May, Carroll Institute.

### CHOIR BOYS' TRAINING SCHOOL OPENS TONIGHT

The new school for the training of choir boys at St. Paul's Episcopal Church will hold its first session this evening, at 7 o'clock, in the choir room. The details of the new school were fully explained in Sunday's Times. It will be open to all respectable boys, and those who desire membership should present themselves to Mr. Winchester this evening by 6:45 o'clock. Boys fortunate enough to become members of this school will receive a fine musical education under able teachers, entirely free of cost.

#### OVERCOME IN BOILER ROOM.

George Sebastian had an attack of epilepsy while at work in the boiler room of the Court of Claims building, Seventeenth street and Pennsylvania avenue northwest, at 4:45 o'clock this morning. After receiving treatment at the Emergency Hospital he went to his home in Rosslyn, Va.

### COUNTRY GOING KERSMASH. PROF. ROY IS DEAD SURE

"The Dangers That Threaten This Republic" was the subject of Prof. Chase Roy's address at the meeting of the Secular League in Pythian Temple. He confidently predicted the end of this Republic. The public schools should be supported, strengthened, and improved as the greatest protection to institutions and laws, he said. An informal discussion followed.

## MODERN MEDICINE METHODS EXTOLLED

President of Columbia University Addresses Students.

### WAR IS ALMOST HUMANE

New Efforts in Surgery and Sanitation Have Done Away With Many Horrors.

NEW YORK, Oct. 9.—President Butler, of Columbia University, following the usual custom, introduced Dean Samuel Lambert to the students at the opening exercises of the College of Physicians and Surgeons, and, referring to the Russian-Japanese war, he said that the advancement of modern practices in medicine had made war almost humane.

#### Some Present Fallacies.

Dean Lambert spoke on "Some Present Fallacies in Medical Education." One of these was what he termed "Trades Unionism in Medical Education," by which no one student was permitted to have more work than another, at least with official sanction, the result of which was that students with better equipment or better natural intelligence have been compelled to limit their activities to correspond with the capabilities of their most poorly prepared and least intelligent fellows.

Another fallacy had to do with the confirmed habit of the medical student of modifying the existing curriculum to meet his individual ideas, and the commonest error for a student to make in this respect has been to run away from his required duties and enter some hospital as a substitute for one of the house staff. "The cure for this," said he, "is the supplying of such work by the college as part of the curriculum, and that we are seeking to supply."

#### Kush for Appointments.

Speaking of this "nervous rush for hospital appointments" and the "fallacious seeking after special points" or personal views of individual physicians, he said:

"It leads students to neglect the broader view and ignore the facts to be learned from a study of the historic development of medicine. It is bringing up a generation of doctors who will do fall easy victims to the cult of those modern idols represented by the secret or patented remedies or anti-this and contra-that."

"These modern 'Medicine Men' are always working the newest fad to the neglect of the accumulated experience of the healing art. The science and art of medicine is not a racetrack where tips and 'outs' have any standing to lead one to pick the winner. The player of the game of medicine must leave nothing to chance, and he will find no short cut to success."

Eighty-one students are in the entering class.

"THE BUSY CORNER"

No other stockings in the world have the meritorious features of the new **BURSON**

It is the stocking women have wanted ever since stockings were first made.

**FASHIONED HOSE**

They have no seams or rough parts

They are shaped to fit the leg

The features, aside from quality and low price, are clearly shown in the illustration at right.

The advantages of these stockings make them of interest to every woman

Come and see them during demonstration by factory experts.

#### Dolls' day

Some day soon we are going to invite all the boys and girls in Washington who have dolls to bring them in and have them fitted with Burson Stockings—FREE.

MOST stockings have seams—the Burson have not.

MOST stockings are straight as a string after washing—Burson keep their shape.

OTHER stockings may fit the foot—but be too large in the leg—Burson stockings fit at every point.

Majority of stockings wrinkle and cause discomfort—Burson fit smooth.

SEAMS in stockings rip—these cannot.

MANY stockings are made too straight—Burson fashioned hose "taper off" beautifully.

\$2.48 at 8 often get twisted and look untidy—The Burson is always neat.

OF COURSE you know the advantage of hand-knitted stockings

—The Burson are knitted on a wonderful machine that shapes them just like hand knitting.

SEAMED stockings call for hand labor—the Burson is fashioned on a machine—and so costs less.

SEAMED stockings have more pressure on the seams and wear out quicker—the Burson last longer because no seams.
